

## Coloring Anime Picture

Anime may be nice in black and white, but wouldn't it be much better in color? Now you can color Anime very easy using a few steps to achieve this result!

Ever wanted to color those boring black and white anime?

- Step 1 As an example, I've chosen the protagonist from DragonballZ, Goku, which, to me, is the best Anime ever!

- Step 2 First we need to create a random background of a random gradient, then place the drawing on top of it and change the blending-mode to Multiply;

- Step 3 EVERYTHING we're gonna do takes place UNDER the drawing;

Now grab the Magic Wand-Tool and select all the pieces of skin on the top layer;

Select your first piece of skin and then HOLD SHIFT to select multiple area's;

Note:NIF YOU HAVE A WACOM OR A DRAWING-TABLET LIKE ME, YOU COULD ALSO USE THIS.

REMEMBER TO STILL COLOR ON A LAYER UNDER THE LINES...

EVEN THOUGH I HAVE A WACOM, I STILL USE THE MAGIC WAND-TOOL TO SHOW YOU HOW THE RESULT SHOULD BE!

- Step 4 Then go to Select>Modify>Expand and expand the selection by 1 pixel;

Note:WE DO THIS BECAUSE THEN THE COLORS TOUCH THE LINES,  
OTHERWISE THEY DON'T!

- Step 5 Do this with all the colors and place them ALL ON DIFFERENT  
LAYERS UNDER THE LINES;

Step 6 If you want to add some nice shadow as well.
